

Constellation’s open platform is the world’s first and only cloud-based suite of digital financial services dedicated to integrating Fintech innovation solely for credit unions.

Why Constellation?

We help meet your challenges quickly, easily, and with confidence for integration, scalability, and data security. Our platform enables delivery of the unique needs of your digital strategy, at a pace just right for your credit union.

Unique Partnerships & Services for Unmatched Value

Adopt the Constellation platform and your first Fintech innovation can deploy in as little as six months, alongside your current digital banking provider.

- Choose certified services currently available
- Identify desired services from fintech partners
- Move to our full banking services suite when ready

70+
Certified Services

150+
Fintech Partners

Delivering a Digital-First Future

With industry associations and our key investors we shepherd ideas and innovations, to provide the industry with the freedom of choice.

Achieving digital transformation is about having **true choice** and **true flexibility**.

Constellation enables your decision for **which**, **how**, and **how quickly** new innovations and services are deployed.

Our Robust Ecosystem

Is designed to support your credit union to take advantage of the full benefits of Constellation.
